

## Building Medical Leadership – Meeting the CCBHC Medical Director Requirement

### Purpose

CCBHCs are required to have “a psychiatrist as Medical Director” to “ensure the medical component of care and the integration of behavioral health (including addictions) and primary care are facilitated.” The Medical Leadership Module (MLM) can assist leadership and medical teams evaluate current medical structure and develop the Medical Director role.

### Process

- Assess current medical services, medical leadership and care integration
- Up to 6 online meetings to complete MLM every 2-4 weeks
- Up to 12 hours of specialty consultation based on agency needs
- 1 hour post-implementation meeting to review outcomes
- Final Report highlighting the changes completed and areas to address
- Access to the MTM Services Resource Library
- **Timeframe:** 6 - 8 months

#### Outcomes:

- Well-defined Medical Director role designed to meet CCBHC requirements
- Process for integrating behavioral health and primary care
- Improved workforce satisfaction

### Individual Center Cost:

- \$19,750
